HYPERTHERM PRICES VALID THROUGH DEC. 31st, 2016

Hypertherm THE WORLDS MOST ADVANCED PLASMA CUTTERS

Powermax30® AIR

Professional-grade plasma system with internal air compressor for high portability and easy metal cutting.

- Operate it anywhere with the internal air compressor.
- Plug into any 120 or 240 V power with Auto-Voltage™ technology and included plug adapters.
- Highly portable. The smallest, lightest weight system in its class.

- Eliminates time and cost of an Air Compressor
- Plug into any 120 or 240 V power with Auto-Voltage™ and included plug adapters.
- Cuts 3/8" @ 10 ipm, 5/16" @20 ipm
- Lightweight 29.8 lbs with Torch

ArcReach™
Increase, Improve and Maximize

Exclusive Miller® technology uses the weld cables to communicate changes in voltage settings. With an ArcReach System, voltage and wire-feed-speed controls are conveniently located at the operator's fingertips – right at the point of use – not back at the power source. By eliminating control cables to the feeder, cabling is streamlined and operators work at maximum efficiency.

Increase productivity — No time-consuming trips to the power source.
 Improve weld quality — Reduces costly "work arounds".
 Improve worker safety — Reduces operator hazards and injuries.
 Maximize efficiency — Reduces costly cord set up, maintenance and repair.

ArcReach™ Remote control of the power source without a cord. With a SuitCase® ArcReach feeder and ArcReach power source you can change output voltage at the feeder, and save a trip to the power supply. No extra control cable to purchase, maintain, string or unstring – saving time and money.

NEW Speedglas® 9100 XXI

A new level of visibility and control

Improved optics deliver more natural color and contrast, which may allow:

- **Better control of the weld puddle** with a view that appears lighter, brighter and more realistic
- **Greater precision** with set-up and finishing operations
- **Simplified workflow** with convenient, "gloves-on" memory mode switching – plus a clearer view of welding machine controls

Fast Switching Between Welding & Grinding

One touch of an external button lets you switch between welding mode and shade 3 grinding mode.

Easy Upgrade

The 9100XXi ADF is compatible with all welding helmets in the 3M™ Speedglas™ Welding Helmet Series 9100. However, to access the grinding and memory modes, the silver front panel included in the 3M™ Speedglas™ Auto-Darkening Filter Kit 9100XXi is required. This panel will only operate on Speedglas Welding Helmets 9100, 9100-Air and 9100-QR.

New Memory Modes

Push the external button for 2-3 seconds to access one of your two preset welding modes. Both memory modes have an individual setting for dark shade, light-to-dark switching sensitivity, and dark-to-light delay.

Instant-On

"Grab and Go" feature automatically turns the welding filter on to your last welding setting whenever you pick up the helmet. Automatically shuts down after a period of inactivity.

One Powerful Machine

Take it everywhere, plug it in anywhere

- » Lightweight and portable—just 40 lbs.!
- » Dual Voltage Inputs (120V or 230V) means you can plug into any common power supply

Ready.Set.Weld™

- » Intuitive push-and-turn digital controls make setup a breeze
- » Large color display guides you through the setup process
- » Advanced options and settings are simple to access

210 Amps: The power to tackle any job

- » MIG: Weld up to 3/8 in. mild or stainless steel or aluminum* up to 3/16 in.
- » Flux-Cored (Self- and Gas-shielded): Tackle the biggest jobs
- » DC Stick: Handles up to 5/32 in. stick electrodes
- » DC TIG: Enabled by Touch Start TIG® technology**

Advanced Features Yet Easy to Use

- Simple user interface makes machine setup easy.
- Available features like pulse mode help make you a better TIG welder, faster.

Great TIG Machine for Aluminum

- High frequency starting for aluminum welding.
- Allows adjustments for wider or tighter arc configurations
- Built-in settings for more cleaning action.

TIG and Stick from One Power Source

- TIG welding for critical welds where precision and bead appearance are important.
- Bonus of stick welding capability for outdoor work or thicker materials.

Take it Everywhere, Plug in Anywhere.™

- Plugs into a standard 120V or 230V circuit.
- Portable and convenient to use – only 46 lb (21 kg).

SQUARE WAVE® TIG 200

CrossLinc™ communications with power source, enabling voltage control at the feeder without a control cable

\$1999

CrossLinc Wire Feeders

CrossLinc feeders enable voltage control at the feeder, while eliminating the extra cable. The result is greater safety, quality, productivity and system reliability.

CrossLinc-Enabled Equipment

CrossLinc Technology is designed to send voltage information hundreds of feet using a standard weld cable.

- Automates adding of filler metal in TIG Welding. All weld parameters can be duplicated.
- Dual Groove Drive Roll system accepts multiple wire sizes.
- Eliminates TIG rod stub loss. Cabinet keeps filler wire clean.
- Makes fully automatic machine TIG welding possible.
- Results are consistent and high quality welds

CK Worldwide manufactures two models of Cold Wire TIG Feeders. The WF-5 feed unit is designed for use with CK "CWH" series hand torches for semi automatic welding applications. The WF-5 has an ON/OFF switch, pilot light, wire feed control, pulse/continuous feed switch, pulse wire on and off timers, and a remote switch receptacle.

SURFOX™ 304 MIG & TIG

Features and benefits

- ▷ Easily cleans MIG, TIG & spot welds
- ▷ Exclusive quick-change system to easily change out accessories & reduce downtime
- ▷ Ability to clean larger and harder to reach areas with our new brushes
- ▷ Integrated reservoir reduces the potential for contaminating or spilling the electrolyte solution
- ▷ Built-in vapor elimination system
- ▷ AC mode for cleaning or marking
- ▷ DC mode for polishing or etching

SURFOX™ 204

Added versatility & safety features

Exclusive to SURFOX 204

- ▷ Built-in fume elimination system (requires a compressed air line)
- ▷ Switchable output:
 - AC Mode: cleaning & marking
 - DC Mode: polishing & etching

SURFOX™ 104

Standard production unit for TIG & spot welds

SURFOX 204 & 104 Features

- ▷ Integrated electrolyte tank to prevent spilling and cross contamination
- ▷ Manual & automatic pump settings
- ▷ Self-regulating inverter board to ensure maximum cleaning effectiveness & minimum downtime
- ▷ Electrical outlet for optional marking kit (sold separately)

\$105

▶ A complete range of abrasives for everything from weld blending to applying a #8 mirror finish

ENDURO-FLEX™ 4 1/2" \$8.95

The longest life and highest overall material removal in the industry

ENDURO-FLEX outperforms all competitive flap discs thanks to its innovative design and exclusive abrasive grain blend. Featuring a new ECO-TRIM backing that can be trimmed back to extend disc life, ENDURO-FLEX is the longest lasting flap disc in the industry and removes more material than any competitive flap disc. Your employees will spend more time getting the job done and less time making trips to the tool crib, saving you time and money while maximizing your productivity.

ENDURO-FLEX STAINLESS™

Guaranteed not to contaminate stainless steel

ENDURO-FLEX Stainless offers all the benefits of the standard ENDURO-FLEX with a formula free of iron, sulfur and chlorine to meet quality control objectives in sensitive operations. ENDURO-FLEX Stainless is the flap disc of choice for workers nationwide for blending applications on stainless steel, aluminum and other heat sensitive alloys.

4 1/2" \$9.95

ZIPWHEEL CUTTER KIT 4 1/2"

The most powerful cordless cutter on the market

34A949
\$619

FREE GLOVES WITH PURCHASE

The ZIP WHEEL CUTTER is a powerful cordless cutting tool that delivers the most cuts and longest battery life when paired with Walter cut-off wheels. It comes with an 18V/ 5.2 Ah battery pack and a Ventilated Charging System, allowing you to charge faster and reduce downtime. This cordless cutter features the DYNAMAX electronic RPM control, which protects the unit from overloading and overheating. It also contains a 270° rotating battery pack so you can adjust the battery for greater comfort while working and offers easy access to the internal carbon brushes.

ZIP WHEEL

ZIP WHEEL is the highest performing cut-off wheel on the market. Faster, cooler, freer cutting and heavily reinforced for added safety, ZIP Wheel provides premium performance while resisting twisting and bending. This allows for a true, straight cut every time. The end result is a wheel that improves worker safety while delivering the lowest cost-per-cut in the industry.

The lowest cost-per-cut in the industry

- 4-1/2" X 7/8 TYPE 1 #11T042 \$ 3.35 EA
- 6" X 7/8 TYPE 1 #11T062 \$ 4.95 EA

ZIP ONE

ZIP ONE offers the quickest cuts and longest life in an ultra-thin 1/32" wheel. It is cool cutting to provide a burr-free cut with minimal discoloration. Best of all, it cuts extremely quickly and without vibration, making your job safer and easier when working with thin gauge steel or stainless steel.

- 4-1/2" X 7/8 TYPE 1 #11T542 \$ 3.45 EA
- 6" X 7/8 TYPE 1 #11T662 \$ 5.55 EA

FLEXCUT™

Premium performance on curved or uneven surfaces

FLEXCUT, the leading flexible grinding wheel for over 25 years, is specially formulated to deliver superior removal on all ferrous and non-ferrous metals without clogging or loading.

- 4 1/2 36 GRIT #15L453 \$ 5.95 EA
- 4 1/2 60 GRIT #15L456 \$ 5.95 EA

ENDURO-FLEX 2-IN-1™ FINISHING DISC

One-step finishing

ENDURO-FLEX 2-in-1 flap discs remove TIG welds and finish the surface in just one step, substantially reducing your finishing costs. Save time and reduce your inventory by using just one disc instead of two or more to perform the same job.

4 1/2 #15L453 \$ 17.50 EA
